Heart-stopping action, intrigue, danger, revenge, and romance, with a hint of a supernatural force as great as the gods—here is the epic story of an unlikely prince and his quest to save his kingdom. The fourth book in Megan Whalen Turner's award-winning series about Eugenides, the Thief of Eddis.

A Conspiracy of Kings

By Megan Whalen Turner

Sophos, heir to Sounis, doesn't look like much of a prince. At least, according to those in power. At least, to those who do not know him or the size of his heart and the depth of his courage, loyalty, and love. But Helen, Queen of Eddis, knows him, and so does Gen, the queen's Thief, who is now King of Attolia. Gen and the queen believe that Sophos is dead. But they also believe in hope, especially since a body was never found. So when Sophos is discovered in Attolia, the obvious question becomes: where has he been all this time?

Megan Whalen Turner's books about Eugenides, the Thief of Eddis, have been called "triumphantly clever," "tantalizing," "suspenseful," and "wholly satisfying." Readers new to the series will be ensnared. Fans will be in heaven. *Includes a map.*

Marketing Campaign

- IndieBound Advance Access for galley
- Browse Inside Full Access for *The Thief*
- Local events: San Diego, CA and Cleveland, OH (possibly working with Cuyahoga Library system)
