Durango will take on any mission—as long as it is dangerous, impossible, and hopeless. As long as it pays enough for him and his crew to get by. He doesn't have a death wish, exactly, but he's got a lot to run from and a whole lot to forget. Fortunately for Durango, he's also got Mimi, a symbiotic nano-implant, to keep him on the straight and narrow (and to keep readers laughing along with the adrenaline rush), and a crew of loyal buddies—male, female, and other. Readers of *The Hunger Games* and Pratchett's *Nation*—from casual fans of future dystopia to hardcore gamers who like fiction with depth—will enjoy this action-jammed, cinematic saga set on a terraformed Mars.
